Washing Won't Rid Head of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain of dandruff. It is no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Advertisement.

ASK FAST TRAINS, NOT CHEAP RATES

New Mexico Corporation Commission Here to Get Better Train Service.

Better train service rather than cheaper railroad rates is what the people of New Mexico want, according to Hugh H. Williams, of the state corporation commission. Mr. Williams, with O. L. Owen, another member of the commission, Ralph C. Ely, receiver for the New Mexico Central railroad, and general manager H. A. Croomer, are here to confer with general superintendent G. F. Hawks, of the El Paso & Southwestern, to try to obtain better train service, if possible, for the people of New Mexico, by getting a better connection with the Southwestern trains at Torrance, N. M. The members of the New Mexico corporation commission are making an effort to obtain for the people of their state what they have repeatedly held was more desired than a cent railroad rate—a better train service throughout the state. When the legislature passed a resolution calling on the corporation commission for its reasons why a 2-cent rate had not been obtained, the answer was that the commission was working for better service, as it believed that this was more desired than the present time in New Mexico than the lower rates per mile.

Get Daylight Schedule. To prove it, the commission is making every effort to get better train schedules through the state, including the connections to El Paso from Santa Fe and to this east. The daylight train schedule from Santa Fe to El Paso over the Santa Fe railroad was obtained by the commission and has proved to be popular.

Accompanied by receiver Ely, who is also a leading Republican politician and former Republican state chairman, and by general manager H. A. Croomer, the two commissioners came to El Paso Tuesday morning for the conference with the Southwestern traffic and operating officials regarding the change at Torrance.

Long Writings Necessary. Under the present schedule of trains on the El Paso and Southwestern, it is necessary for passengers from Santa Fe over the Santa Fe Central to lay over more than four hours in Torrance, El Paso over the Santa Fe railroad to catch the Southwestern train No. 1 to El Paso. The commissioners will ask if something cannot be done to improve connections. "The New Mexico Central is in no position to demand anything as it is in the hands of a receiver and has been losing money," declared Mr. Williams Tuesday morning. "Neither is the corporation commission demanding anything of the Southwestern. We believe that by cooperation and arbitration we can obtain concessions from the Southwestern, for we know what a liberal man Mr. Hawks is and we are sure that we will obtain concessions from that system which will give us a better train service to and from the state capital by way of Torrance. That is what we are working for all the time, as we have been firm in the belief that it is better service that the people of New Mexico want rather than a cheaper rate which might restrict the service."

To Deming section, From El Paso the two corporation commissioners will go to Myndus and

ASSERTS MAYOR DIRECTED FRAUD

A Police Official at Terre Haute Tells of Jailing Opposition Workers.

Indianapolis, Ind., March 23.—Mayor Donn M. Roberts, of Terre Haute, was the instigator of acts which the federal government contends in the trial of the Terre Haute election cases resulted in corrupting the election of last November, according to testimony today by John P. Nugent, former assistant chief of police of Terre Haute. Nugent, who has pleaded guilty, related his connection with the alleged conspiracy. "Roberts told me he did not want anybody on the board he could not handle," Nugent testified, in telling of his part in preventing the regularly chosen election board for the Taylorville precinct from serving. "He told me to see Joe Jeffers, get him to select the board and see that it served."

Arrests Were Framed. Nugent said Jeffers, who has pleaded guilty, selected the board and "framed the arrest" of the progressive members and that Roberts ordered the members held in detention cells.

"Mayor Roberts," continued the witness, "ordered the construction of the detention cells a short time before the election, saying 'We'll have a rush about then.'"

Nugent testified that sheriff Dennis Shea, a defendant, released from jail Joe Bertche and armed him with a pistol and a knife. The district attorney Dailley asserted that "Bertche is a well known burglar, gunman and murderer." Nugent stated Shea told him Bertche had "worked in the Chicago elections and was a good man to have around the polls."

The former police official was asked about "Chaplin" Moran, who was described by Dailley as a "confidence man with an international reputation." Nugent said Moran helped Shea in precinct C of the sixth ward and it was brought out that Moran had served on the registration board there.

Nugent said Roberts gave him a list of names he wanted on the ballot as the prohibition ticket and that he passed the list on to the deputy county clerk with Roberts' instructions.

50 LOSE LIVES IN LANDSLIDE

Miners Hear Explosion, and Mass of Rocks Sweeps Buildings Away.

Vancouver, B. C., March 23.—Until the arrival of another steamer today from Howe sound, no information was expected to be received concerning the extent of the loss of life in the snow and landslide that swept away, early Monday, part of the plant of the Britannia Mines Co., Ltd. A steamer which arrived from Britannia Beach, Monday night, with several of the injured, brought word that the death list probably would reach the first estimate of 50. Eighteen bodies had been recovered and 20 were known to have been injured.

The slide occurred shortly after midnight.

Explosion Precedes Landslide. There was a report like a dynamite explosion; in fact, survivors declared they first thought the mine's magazine had blown up, and men and rock, snow and huge trees swept down from near the summit of the mountains.

It carried off from a ledge a bank-house, cook house and one or two of the houses occupied by the wives and families of the employees.

The entire mass of debris then shot downward, stopping half a mile further, near the Britannia creek, where some of the mine workers are situated. **Battered Bodies Are Found.** When the rescuers got to work they found some bodies free of the rocks and debris, but many were so badly battered as to be almost unrecognizable.

About a dozen men coming off the night shift from the mine, were rescued. One man was buried in the snow for several hours, only his hand appearing above the surface. He was rescued unhurt, although nearly frozen.

RIVERO MAKES STATEMENT. Editor El Paso Herald: Undoubtedly the good faith and impartiality of your paper will lead you to give me the privilege of correcting a statement which you printed relative to me from a New Orleans paper, which stated that I had been expelled from a New York hotel for non-payment of a hotel bill. This is infamous. At the hotel "America," where I stopped in New York, situated at the Union Square, the proprietor told me that not only did I pay my hotel bill, but that all the time that I remained there, I had a deposit with the manager consisting of quite a sum of money.

The other charges made by your officious informant, are, absolutely false. The case is now pending in the proper court and the tranquility of my conscience assures me that the verdict will be favorable for me. Believing, as I do that in a civilized country as this is, justice shall be meted out to whomsoever is entitled to it.

Receiving you to give publicity to this letter in the columns of your paper, thus giving proof of your well known impartiality, I remain yours very truly, Santiago F. Rivero.

CENTRAL UNION FOR JUNE LAW

Approves Protective Regulation; Protests Against the Army Band.

Organized labor of El Paso has gone on record as approving the regulation of the fine automobile business for the protection of the public but not to make the regulation so strict that it will put the fine autos out of business.

A resolution was adopted at the Monday night meeting of the Central Labor union which stated this position of the central body. A committee composed of E. W. Langan, of the plumbers' union, E. W. Langan, of the plumbers' union, and E. Lindburgh, of the electrical workers' union, was appointed to draw up the formal resolutions and make a report at the next meeting of the central body.

The central union also drafted a strong protest to the war department and to the commanding officers at Fort Bliss against the competition of army musicians with local union musicians. The members of the musicians' union claim that this is "unfair" competition since the war department has ruled that no army bands may compete with civilian bands at the post where they are stationed. A committee composed of E. D. Skinner, of the cooks and waiters' union; C. E. Smith, of the automobile drivers' union; T. R. Moody, of the bartenders' union, and H. E. Van Surdam, of the musicians' union, will prepare the protest for filing at Washington.

Sympathy for President. Resolutions of sympathy were passed by the central body on the death of Mrs. Charles H. Smith, wife of president Smith, of the Central union. Mr. Smith is now in the staff, Ark., where he accompanied the body of his wife for burial at the old home.

The report of E. D. Skinner, secretary and treasurer of the Central union, showed that body completely out of debt, the last bills having been paid this week.

Talks were made by Edwin V. Drake.

Recipes of Our Pioneer Mothers for the home treatment of diseases were wonderfully dependable. True, they knew nothing of drugs, but owed their success to the roots, herbs and barks of the field. It is interesting to note that Lydia E. Pinkham's Vegetable Compound, the most successful remedy for female ills we have, was originally prepared for home use from one of these recipes. Its fame has now spread from shore to shore, and thousands of American women now well and strong claim they owe their health and happiness to Lydia E. Pinkham's Vegetable compound.—Advertisement.
